a) On April 1, 2003, and every two years thereafter, every Level 1 carrier shall file with the Commission for review and approval a tariff containing its Wholesale Service Quality Plan as specified in, and pursuant to, Subparts B, C, D and E of this Part. For any filing due after April 1, 2003, if a Level 1 carrier proposes to maintain, without any additions, deletions or modifications, its existing tariff containing its Wholesale Service Quality Plan, the Level 1 carrier may file, in lieu of filing a new tariff, a verified

Filing of Tariffs Regarding Wholesale Service Quality Plans

statement confirming that it will maintain in effect, without any additions,

SUBPART B: PROCEDURE FOR LEVEL 1 CARRIERS

deletions or modifications, its existing tariff until modified pursuant to this Part.

- Any carrier designated by the Commission as a Level 1 carrier pursuant to b) Sections 731.115(a)(3) and 731.635 shall file a tariff containing its Wholesale Service Quality Plan within ninety (90) days of its designation as a Level 1 carrier by the Commission, and, after one year from the filing of its initial Wholesale Service Quality Plan, shall file all subsequent Wholesale Service Quality Plans pursuant to paragraph (a) of this Section.
- c) To the extent the Commission determines that a Level 1 carrier's Wholesale Service Quality Plan should be investigated, modified, updated or in any way amended for any reason prior to the end of a biennial period, the Commission may initiate a proceeding to investigate, modify, update or amend the previously adopted Wholesale Service Quality Plan. Additionally, if another carrier seeks modification of a previously adopted Plan on an interim basis, it may file a petition originating a proceeding at any time.

Review of Tariffs Regarding Wholesale Service Quality Plans

For each investigation or review of a Wholesale Service Quality Plan filed as a tariff with the Commission for review and approval pursuant to Section 731.200, unless otherwise ordered by the Administrative Law Judge or the Commission, the Commission shall initiate a proceeding and schedule a prehearing conference (see 83 III. Adm. Code 200.300) to occur no more than 21 days after the filing date specified in Section 731.200-, except that no proceeding shall be initiated if a carrier, pursuant to Section 731.200(a), files a verified statement regarding its intent to maintain in effect its existing

Wholesale Service Quality Plan tariff. The purpose of the proceeding shall be to determine the adequacy and appropriateness of each Plan with respect to the requirements of the Act and this Part, and to adopt a Wholesale Service Quality Plan for the filing carrier. The carrier filing the Plan shall be a party to the proceeding. Other parties may intervene, pursuant to the Commission's Rules of Practice. The proceeding will be scheduled, unless otherwise ordered by the Administrative Law Judge or the Commission, so that a Proposed Order is presented to the Commission by the Administrative Law Judge no later than 3 months after the date of the carrier's filing as specified in Section 731.200. The Commission will adopt a carrier's Plan if it complies with the requirements of Subparts B, C, D and E of this rule.

Section 731.220 Wholesale Service Quality Plan Filing Requirements

a) The Wholesale Service Quality Plan filing requirements set forth in this Section are designed to assist the Commission and Commission Staff in performing a review of Wholesale Service Quality Plan filings under this Part. Information and schedules contained in the filing requirements may be designed to provide support for the carrier's position or to provide supplemental information to facilitate the Commission Staff's review of the filing. The information supplied under the filing requirements shall not be construed as evidence or made part of the record unless it is offered by a party under the applicable Commission rules (83 III. Adm. Code 200.610 to 200.700).

b) Each carrier subject to this Subpart shall, on the date specified in Section 731.200 for the filing of a tariff containing its Wholesale Service Quality Plan, file with its tariff the prepared direct testimony and exhibits of carrier personnel and any expert witnesses in support of the carrier's Plan. Prepared direct testimony shall be in compliance with the Commission's Rules of Practice (83 III. Adm. Code 200). At a minimum, the prepared direct testimony and exhibits shall address and/or include the following:

1) The carrier's wholesale service quality record over the last two years, including a summary of performance and of any remedy payments or credits paid, given and/or assessed over that time period.

2) All changes to the carrier's Wholesale Service Quality Plan most recently adopted by the Commission or, if such carrier does not have a previously adopted Wholesale Services Quality Plan but does have a Preexisting Plan, all changes to the carrier's Preexisting Plan, and the basis for all such changes relied upon by the carrier.

 - The Remedies included in this Section are cumulative. Upon failing to satisfy any one Standard during two consecutive calendar months (with the exception of the Chronic Failure Standard), a Provisioning Carrier must credit a Requesting Carrier 100% of the amount the Requesting Carrier otherwise would be obligated to pay the Provisioning Carrier for all Wholesale Special Access services provided to the Requesting Carrier, in Illinois, for that second month. In the event a Provisioning Carrier fails to satisfy multiple Standards during any two consecutive calendar months and is thereby obligated to provide a Requesting Carrier with multiple credits, the Provisioning Carrier shall pay (rather than credit) the Requesting Carrier the amount due for each credit beyond the first.
 - Any calendar month that supports the imposition of a Remedy for a Provisioning Carrier's failure to satisfy a particular Standard set forth in Section 731.310 may be used to support the imposition of a Remedy relating to that particular Standard only once during any calendar year. For example, if a Provisioning Carrier fails to satisfy the Network Availability Standard during January, February and March of a particular year, the Provision Carrier will be obligated to provide a Requesting Carrier a credit for the Provisioning Carrier's deficient performance relating to Network Availability during January and February but not for its deficient performance during February and March. However, if the Provisioning Carrier fails to satisfy the Network Availability Standard in April of the same year, the Provisioning Carrier would be required to provide the Requesting Carrier with a credit for the Provisioning Carrier's deficient performance during March and April.
 - Notwithstanding the fact that as a result of a Provisioning Carrier's performance during two consecutive calendar months, the Provisioning Carrier fails to satisfy multiple Standards set forth in Section 731.310, in addition to issuing a Requesting Carrier the credit required under this section, the Provisioning Carrier shall not be obligated to pay the Requesting Carrier more than two times the amount the Requesting Carrier otherwise would be obligated to pay the Provisioning Carrier for Wholesale Special Access services during the second month.

Section 731.320 Reporting

Each carrier's Wholesale Service Quality Plan shall provide that the Level 1 carrier will report monthly data to the Commission and to carriers purchasing Wholesale Services. At a minimum, the monthly data shall include the total number of transactions on a per measure basis, the number of instances in which standards contained in the Level 1 carrier's Wholesale Service Quality Plan were not met on a per measure basis, and calculations supporting any remedies paid to carriers purchasing Wholesale Services from the Level 1 carrier.

Each carrier's Wholesale Service Quality Plan shall indicate the process it will follow each month for reporting including, without limitation, the date performance data and remedy amounts will be made available. The reporting process shall also include the timelines and procedures the carrier will follow when making data and or remedy restatements.

Section 731.325 Auditing

Each Wholesale Service Quality Plan adopted by the Commission shall comply with the requirements of Section 731.300(g), provide for periodic audits of the wholesale performance data by an independent auditing firm, include the frequency and scope of the required audits, and indicate responsibility for payment of audits. Audits should be provided for both the measures being reported as well as for any remedy payments. Level 1 carriers must follow the auditing requirements set forth in their respective Wholesale Service Quality Plans. Each Plan shall, in any event, provide for both Commission initiated audits as well as audits initiated by requesting carriers.

Level 1 carriers shall retain all records required to support wholesale performance relative to this rule for at least three (3) years. Audits are necessary to ensure that data reported by the carriers is valid and reliable and adheres to the carrier's filed Plan.

SUBPART D: PROVISIONS APPLICABLE TO ALL LEVEL 1 CARRIERS

Section 731.400 Treatment and Effect of Wholesale Service Emergency Situations

The standards contained in any Plan will not be considered to be violated for the period of delay if such delay is due to a Wholesale Service Emergency Situation. Notwithstanding anything to the contrary in this Part, in those situations where a standard cannot be satisfied at all as a result of a Wholesale Service Emergency Situation, the failure to satisfy such standard shall not be deemed to be a violation of the applicable standard set forth in such Plan.

The Plans adopted by the Commission may be those Plans as filed by the Level 1 carriers or as modified by the Commission.
- b) Basis for Adoption. In adopting a Wholesale Service Quality Plan for each carrier, the Commission shall address and consider each of the following:
 - 1) Whether the Plan contains clearly articulated, pre-determined measures and standards, which encompass a comprehensive range of carrier-to-carrier performance.
 - 2) Whether each measure has a clearly articulated definition, or "business rule," which sets forth the manner in which the data is to be collected by the carrier, lists any relevant exclusions, and states the applicable performance standards.
 - 3) Whether the Plan contains an effective mechanism that is designed to detect and sanction poor performance when it occurs on both an individual measure and aggregate basis.
 - 4) Whether the Plan subjects the Level 1 carrier to potential liability sufficient to provide a meaningful and significant incentive to comply with the designated performance standards.

| 1132 1133 1134 1135 | 5) | Whether liability under the Plan's enforcement mechanism would actually accrue at meaningful and significant levels when performance standards are missed. |
|--|---|--|
| 1136 1137 1138 | 6) | Whether the Plan contains a self-executing mechanism that does not leave the door open to litigation and appeal. |
| 1139 1140 1141 | 7) | Whether the Plan contains reasonable assurances that the reported data is accurate and that the reported data is able to be audited. |
| 1142 1143 1144 | 8) | Whether the Plan complies with, and satisfies the goals of, this Part 731. |
| 1145 1146 1147 | 9) | Whether the Plan complies with the requirements set forth in Subparts B, C, D and E of this Part 731, including but not limited to Section 731.300. |
